

RIG MOUNTED CORE DRILLS

Whether hand-held or rig-mounted, the **AGP** Diamond Core Drilling line is specifically designed to match and exceed the demands of professionals. At the heart of these machines is a purpose-designed motor made to have the ideal characteristics for a diamond core drill application. They are plenty powerful, but the emphasis is more on bullet-proof durability, even under challenging loads. Great pains were taken by our motor design team engineers to come up with the perfect combination of high output and cool running.

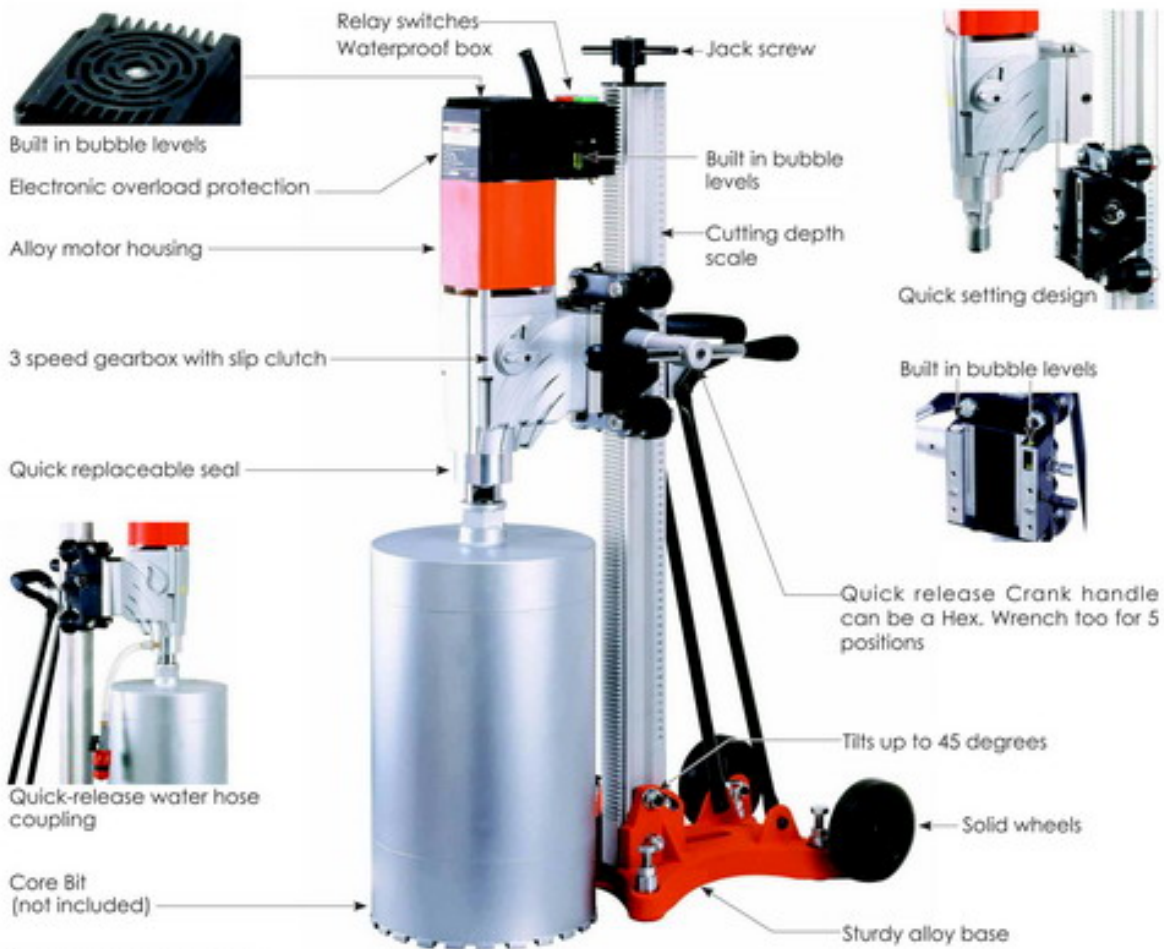

The motor overload protection is made to be the most effective and unobtrusive you have ever used. No long waiting needed.

The 3 speed mechanical gearbox is made to give the best torque for a range of sizes and aggregates.

The front seal is quick replaceable without the need to remove the gearbox.

Added convenience with the 45 degree tilt and built-in bubble levels.

The total design is made to give the best rigidity while at the same time having exceptionally low weight.

OPTIONAL ACCESSORY:

PRCD interrupter protection on 230V models

Model	DM250 L	DM250 H
Power input	2600 W	2600 W
Voltage	230V / 50Hz, 110V / 60Hz	230V / 50Hz, 110V / 60Hz
No Load r.p.m	350 / 630 / 840	650 / 1000 / 1250
Full Load r.p.m	230 / 390 / 540	450 / 650 / 850
Capacity	10" (250mm)	10" (250mm)
Arbor Thread	1-1/4"-7 UNC	1-1/4"-7 UNC
Angle	0-45 Deg.	0-45 Deg.
Net Weight	25.3 Kgs (55.6 Lbs)	25.3 Kgs (55.6 Lbs)

STANDARD ACCESSORIES

- * M32 combination wrench
- * M17/19 open-end wrench
- * M6 hex wrench
- * Jack screw
- * Water supply kit
