K-Pact

Push Along Pavement & Concrete Saw

K-Pact

Push-along Concrete & Pavement Saw

The K-pact is a light-weight, manoeuvrable machine you must have! It is durable and rugged, the perfect machine for sawing floors, roads, footpaths, decorative sawing, outlining patches and many other small concrete cutting jobs.

Features

- **A rugged, compact and portable saw.** A 6mm lasercut & folded structural baseplate provides maximum rigidity.
- **Depth of cut is controlled by a gas filled strut, operated by a hand lever.** This enables easy blade lowering & cutting depth control.
- **Handlebar mounted controls** provide convenient operation of cutting depth lever, water supply & stop switch.
- **Large Rear Wheels** for manoeuvrability on any surface
- **Folding Handlebar Assembly** allows portability and height adjustment
- **Folding Guide Bar** provides cutting accuracy

Specifications

- **Bladeshaft and Bearings** 32mm
- **Blade Capacity** 360mm and **Bore Size** 25.4mm with drive pin will accept up to 10mm thick abrasive blades.
- **Engine** standard 9 hp Honda (available with optional 9 hp Robin engine)
- **Max cutting depth** 121mm
- **Weights and Dimensions**
Uncrated 70 kg L — 690mm W — 480mm H — 640mm
